Physics Seminar
Friday, September 23, 2011
Collins 323, 2-3 pm
Senior Research Proposals
Willamette Physics Department

Jenna Hermann
The Role of the Molecular Motor Myosin VIIa in Phagocytosis in Retinal Pigment Epithelium Cells

Erik Reinhart
TYC-3144-595-1: A Study of a Suspected Double-Mode Pulsating Variable Star

Jesse Sant
Analyzing the Force Dependent Function of Myosin 1c

Hayley Whitson
Construction of a Dye Laser for Use in Detecting Ultracold Molecules
