DIY skate park under the east side of the Burnside Bridge. The park is free and does not require safety equipment and receives no money from the city.

Started in 1990 with leftover cement for the I 84 ramp project.

ApeSeven (George Hambov) is a self-educated artist from Sydney, Australia. For someone who lives on a different continent, he sure has a lot of street art in Portland. His work often includes Birds, skulls, hand bones, foxes, and rabbits.

I no longer the skatepark as a destination since I have had skateboarders and bikers
