

## Events Internship

The Sierra Club is the nation's largest and most influential grassroots environmental organization. Our Beyond Coal campaign has been heralded as one of the most successful environmental campaigns in the history of the United States. We have seen some success here in Oregon; our state will be coal plant free by 2020 when the Boardman Coal Plant retires. Unfortunately, our progress could be undermined by Big Coal's plans to ship millions of tons of coal through the Pacific Northwest to Asia- polluting our air and water with toxins, putting our communities' safety at risk, clogging our railroads and waterways, and stoking the climate crisis all the way. We are working to get Governor Kitzhaber and local officials to apply their leadership to stop coal exportation through Oregon. The more information, please check out our websites at: [www.beyondcoal.org](http://www.beyondcoal.org) and [www.powerpastcoal.org](http://www.powerpastcoal.org).
