Vol. 99, February 23 2022

Editors: GwenEllyn Anderson and Dave MacMillan

ICL Update:

- [MEMBERSHIP SURVEY 2022 Results](#): Please note that the purpose of the survey was to inform the board when making schedule decisions for meeting again in person in the fall. The survey results were not the only consideration. (see below)

Total: Σ=212	POLL QUESTIONS - Total Responses = 122
31	4 hours a day, 2 days a week (as we did pre-pandemic)
25	3 hours a day, 2 times a week
50	3 hours a day, once a week
31	2 hours a day, 2 times a week
75	Once a week (2 or 3 hours) plus a second day occasionally (field trips, social events, topical presentations, etc)

- **ICL Board Meeting (February 17th):**
 - The board voted to meet 2 hours a day twice a week in the Fall - same as the current schedule except we expect to be meeting in person. This decision is intended to transition back to in-person classes without the addition of a major schedule change, introduce new members to a more traditional ICL environment, and give the Curriculum Committee a clear plan to begin scheduling for the Fall semester.
 - Dues will be charged for next year: **\$165** per member regardless of if in person or on Zoom. *Stay tuned for more information on payment.*
 - The **March board meeting** was moved from March 17th to Tuesday, **March 15th** to make the decision of whether or not to meet in person or continue via Zoom and give presenters and members a little more time to make adjustments.
- **New! Presentation Suggestion Form:** Have an idea for an ICL presentation? A topic? An issue? A person you would like to hear more from? A presentation that *you* would like to do? Fill out this form, and your suggestion will be seen by members of the ICL Curriculum Committee. *Thank you!* [Presentation Suggestion Form](#)
- **Boosted?** Remember to email a digital photo of your vaccination card showing that you have received the booster shot to vernelle.judy@gmail.com. You will need to do this before attending ICL classes when we are able to meet in person again.

Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery.

Olympic History:

Anders Haugen received a bronze medal in ski jumping at the age of 86 — 50 years after he originally competed. Haugen earned third at the 1924 Olympic Games, but a scoring error knocked him down to fourth and it wasn't corrected until 1974

The first Olympian to be featured on a Wheaties box was track and field gold medalist Babe Didrikson. Her picture appeared on the back of the cereal packaging in 1935.

Salem City Club presents: Oregon's Broken Primary System with Phil Keisling

Friday, March 4, 2022 | 12:00 PM | Zoom Webinar

Well-known political analyst and former Oregon Secretary of State Phil Keisling thinks Oregon has built an enviable reputation for its leadership in enacting some of America's most "pro-voter" policies.

In 2000, we were the first state to automatically mail ballots to all active registered voters; this "Vote at Home" approach will be used in 8 other states in 2022. In 2015, Oregon was the nation's first state to adopt Automatic Voter Registration, by which eligible citizens can be registered as new voters or can have their existing records updated. This approach is now used in more than 20 states.

But in one area, Keisling thinks Oregon continues to be a "national laggard." Oregon still runs so-called "closed" primary elections, by which voters are required to be a member of a major political party to participate in choosing nominees for key offices, including US Senator, Congress, Governor, and state legislature. Oregon's Non Affiliated Voters (NAVs) now number more than 1 million -- more than either the Democratic or Republican parties can claim as members - and more than half of all 18-34 year old voters fall in this category. But as explained by Keisling, "These voters are now typically shut out of these taxpayer-funded primary elections -- which more often than not effectively decide who'll prevail in the general elections."

America's increasingly polarized politics have brought renewed interest to this topic. Please join Phil Keisling in a discussion about a number of potential ways to fix this situation, many of which have now been adopted

in states across the U.S., including Alaska, Washington, California, Colorado, and Maine.
