Mid-Valley Travel Club

The presentation by Mary Hollendoner at the September meeting was a great opener to the new season of travel programs. They were able to record the program so it is available now for those who were unable to join the meeting that night, or would like to watch the video to enjoy her stories and excellent photos again.

To find the recording of her "Monkeys on the Road" presentation, you can go to the "Past Presentations" tab on the Club's website <https://www.midvalleytravel.club/past-presentations>.

Click on the title "Monkeys on the Road" and then click on "View the presentation here" to view or download the program. Because of its size, it may take a couple minutes to load. Mary's narration starts 23 seconds before the pictures are seen on the video.

If you would like to know more about Mary's family adventure, you can find her book "Monkeys on the Road" on Amazon, Barnes & Noble, Walmart and others, in digital and printed book formats. It includes many additional stories of their experiences that she couldn't fit into a meeting-length program. Some of us have already read "Monkeys on the Road" and highly recommend this book to anyone with a love of travel.

Here is the Amazon link to learn more about her book:

You may also be interested in Mary's website, which has more photos and lots of other details from their journey that you may enjoy:

The original ketchup was **nothing like the sweet tomato concoction we know today.**

Ketchup (also known as "catsup") is an Asian invention (the name derives from the Chinese word "ke-tsiap," meaning fish sauce) and began as a pickled fish sauce that tasted more like Worcestershire sauce. In the 17th century, British sailors adapted the sauce and began to make it out of mushrooms. Tomatoes were added by North Americans around 1801.
