

Willamette Mathematics Presents

# An Overview of Zero-Knowledge Proofs

$$\Delta t = T - \frac{3a}{x} \quad \ln|x| \left( \frac{a - \sqrt{x^2}}{x} \right) + C \quad \frac{\Delta x}{\Delta y} = \lim_{\Delta y \rightarrow \infty} \frac{\Delta x + 2}{\Delta y - 1} \quad \sin x$$
