

The 25% allowed absences does not depend on how many credits the class is worth, rather it depends on how many times the class is scheduled to meet per week. When the Office of Student Affairs calculates absences, the process is to round up the next whole number. However, if the professor has a more strict policy we must defer to his/her policy.

Class meets per week (13 wks)	Allowed absences
1x	3.25 ~ 4
2x	6.5 ~ 7
3x	9.75 ~ 10
4x	13
