EDUCATION

- Ph.D., Chemistry** Oct. 1997
California Institute of Technology, Pasadena, CA
Thesis: *Ultrafast Gas-Phase Electron Diffraction*
Advisor: Professor Ahmed H. Zewail
- B.Sc. (High Distinction), Chemistry and Physics (Double Major)** May 1990
Harvey Mudd College, Claremont, CA

PROFESSIONAL EXPERIENCE

- Professor of Chemistry** Aug. 2011 – Present
Willamette University, Salem, OR
Responsibilities include teaching Physical Chemistry, Experimental Chemistry, General Chemistry, associated laboratory courses, Special Topics in Physical Chemistry, College Colloquium, and undergraduate academic advising. Advise and direct summer research students and senior chemistry majors in research experiences. Primary area of research interest includes liquid-liquid miscibility.
- Associate Professor of Chemistry** Aug. 2005 – July 2011
Willamette University, Salem, OR
- Assistant Professor of Chemistry** Aug. 1999 – July 2005
Willamette University, Salem, OR
- Visiting Professor of Chemistry** Jan. 1999 – May 1999
University of Iowa, Iowa City, IA
- Adjunct Professor of Physics** Aug. 1998 – June 1999
University of Iowa, Iowa City, IA
- Graduate Teaching Assistant** 1994, 1995
California Institute of Technology, Pasadena, CA

J. Charles Williamson

RESEARCH TRAINING

Graduate Research Assistant

California Institute of Technology, Pasadena, CA

- *Graduate Research Project* Sept. 1990 – Oct. 1997
Pioneered ultrafast gas-phase electron diffraction (UGED), a technique for observing the dynamics of isolated molecules on the picosecond time scale by monitoring changes in molecular structure. Built a femtosecond laser system; an electron beam source; a vacuum chamber; and a pair of CCD-based single-electron imagers. Developed theoretical treatments of UGED and wrote a software analysis package for processing UGED data. In the prototype UGED experiment, the dissociation of CH_2I_2 was observed with 5-10 ps temporal resolution.

Undergraduate Research

Harvey Mudd College, Claremont, CA

- *Senior Research Project* Sept. 1989 – May 1990
Investigated the behavior of the Belousov-Zhabotinsky oscillating reaction as a function of reactant flow rates in a home-built, continuously-stirred tank reactor.
- *Summer Research Assistant* Summer 1989
Installed a new Undergraduate Laser Laboratory for the Chemistry Department. Set up lasers and light detection instruments, wrote a user-interface program for the laboratory computer, and beta-tested three experiments which were later included in laboratory coursework.
- *Summer Research Assistant* Summer 1988
Studied the Ketal-Claisen rearrangement. Research centered on stereo- and regiochemical effects in the reaction of 1,1-dimethoxy-3,3-dimethylcyclohexane with allylic alcohols.

HONORS AND AWARDS

Taul Watanabe Chair in the Sciences	2018 – Present
Jerry E. Hudson Award for Outstanding Teaching	2016
Sigma Xi Outstanding Scientific Research Award	2011
Faculty Achievement Award for Teaching and Service	2008
Faculty Achievement Award for Teaching and Scholarship	2001
National Science Foundation Graduate Fellowship	1990 – 1993
Hertz Foundation Graduate Fellowship (declined in favor of NSF award)	1990
Letter of Commendation for Senior Research Project	1990
Graduation Honors from the Chemistry, Physics, and Humanities Departments	1990
Radley Prize in Humanities and Social Sciences	1990
Art and Dottie Campbell Award	1988
National Merit Scholar	1986
State of Oregon Representative to Summer Program for High School Students at Brookhaven National Laboratory	1986

C. B. Babayco* and **J. C. Williamson**, Seventeenth National Conference on Undergraduate Research, University of Utah, Salt Lake City, UT. March 14, 2003.

“Experimental Design for Determining Phase Diagrams of Binary Liquid Systems”

C. B. Babayco* and **J. C. Williamson**, 11th Murdock College Science Research Conference, Whitman College, Walla Walla, WA. November 15, 2002.

“Effect of Ethanol on Miscibility in the Cyclohexane / Acetic Anhydride Binary Liquid System”

D. R. Sluss* and **J. C. Williamson**, Northwest Undergraduate Science Research Conference, Oregon Health and Science University, Portland, OR. April 13, 2002.

STUDENT CONFERENCE POSTER PRESENTATIONS (Presenter; Undergraduate*)

“Exploring Pre-Transition Droplet Formation in Binary Systems Containing an Ionic Liquid”

D. L. Huber*, A. H. Williams, and **J. C. Williamson**, 27th Murdock College Science Research Conference, Vancouver, WA. November 9, 2018.

“Ionic Impurity Effects in the Isobutyric Acid + Water System”

A. H. Williams*, D. L. Huber, and **J. C. Williamson**, 27th Murdock College Science Research Conference, Vancouver, WA. November 9, 2018.

“Impurity Effects on Liquid-Liquid Binary Systems”

M. McKibben*, T. Kallem*, and **J. C. Williamson**, 26th Murdock College Science Research Conference, Spokane, WA. November 10, 2017.

“Exploration of Pre-Transition Droplet Formation in Liquid-Liquid Binary Systems”

Award Winner in Analytical / Inorganic / Physical Category

M. McKibben*, K. C. Riley*, and **J. C. Williamson**, 25th Murdock College Science Research Conference, Spokane, WA. November 4, 2016.

“Progress Towards Characterization of Pre-Transition Droplets in Liquid-Liquid Binary Systems”

M. McKibben*, S. Rogers*, and **J. C. Williamson**, 24th Murdock College Science Research Conference, Vancouver, WA. November 6, 2015.

“Determination of the Methanol + Carbon Disulfide Liquid-Liquid Phase Diagram”

E. Weatherford* and **J. C. Williamson**, 23rd Murdock College Science Research Conference, Vancouver, WA. November 14, 2014.

J. Charles Williamson

- “Investigating Phase Transitions in Liquid-Liquid Systems Via Light Scattering and Raman Spectroscopy”
B. E. Miller* and **J. C. Williamson**, 8th Annual Western Conference for Undergraduate Women in Physics, California Institute of Technology, Pasadena, CA. January 18-20, 2013.
- “Investigation of a Phase Diagram Anomaly in the *o*-Toluidine + *n*-Hexane Binary Liquid-Liquid System”
1st Place in Undergraduate Chemistry Category
E. F. Yee* and **J. C. Williamson**, 8th Sigma Xi Columbia-Willamette Student Research Symposium, Portland State University, Portland, OR. April 6, 2012.
- “The Effects of Side Product Formation on the Phase Boundary of the 3-Buten-2-One / Water Liquid-Liquid System”
C. M. Harthcock* and **J. C. Williamson**, 17th Murdock College Science Research Conference, University of Puget Sound, Tacoma, OR. November 7, 2008.
- “Using Molecular Iodine for High-Precision Spectroscopic Calibration”
C. Hernandez-Diaz* and **J. C. Williamson**, 16th Murdock College Science Research Conference, Willamette University, Salem, OR. November 2, 2007.
- “Phase Equilibrium Studies of the 3-Buten-2-one / Water Binary Liquid System”
M. Bicocca* and **J. C. Williamson**, 16th Murdock College Science Research Conference, Willamette University, Salem, OR. November 2, 2007.
- “A Kinetics Study of the Up-Converted Fluorescence from Solutions Containing [Ru(dmb)₃]²⁺ and 9,10-Diphenylanthracene”
M. A. Phimister* and **J. C. Williamson**, 15th Murdock College Science Research Conference, University of Portland, Portland, OR. October 20, 2006.
- “Laser Light Scattering Investigations of the Isobutyric Acid / Water Binary Liquid Mixture”
K. M. Dean* and **J. C. Williamson**, 13th Murdock College Science Research Conference, Lewis and Clark College, Portland, OR. November 19, 2004.
- “Interpretation of Light Scattering for the Measurement of Binary Liquid Phase Diagrams”
C. B. Babayco* and **J. C. Williamson**, 12th Murdock College Science Research Conference, Pacific Lutheran University, Tacoma, WA. November 7, 2003
- “Progress Towards Observing the Non-Coincidence Effect in Binary Liquid Mixtures”
B. B. Smith* and **J. C. Williamson**, 12th Murdock College Science Research Conference, Pacific Lutheran University, Tacoma, WA. November 7, 2003
- “The Non-Coincidence Effect and Raman Spectroscopy”
C. H. Foot* and **J. C. Williamson**, 11th Murdock College Science Research Conference, Whitman College, Walla Walla, WA. November 15, 2002.
- “Measuring Spermatazoa Mobility Via Laser Doppler Velocimetry”
S. L. Brumbach* and **J. C. Williamson**, 10th Murdock College Science Research Conference, Gonzaga University, Spokane, WA. November 2, 2001.
- “Measuring Liquid-Liquid Phase Diagrams Using the Cloud Point Method”
D. R. Sluss* and **J. C. Williamson**, 10th Murdock College Science Research Conference, Gonzaga University, Spokane, WA. November 2, 2001.
- “The Willamette University Laser Laboratory”
K. M. Schubothe*, D. R. Sluss*, and **J. C. Williamson**, 9th Murdock College Science Research Conference, University of Puget Sound, Tacoma, WA. November 3, 2000.

J. Charles Williamson

WORKSHOP PARTICIPATION

- “Crafting Inclusive Classrooms”
Willamette University, Salem, OR. Jan. 16, 2020.
- “Call Out Culture: Context and Consequences” by Emily Drew and Don Thomson
Willamette University, Salem, OR. Nov. 18, 2019.
- “The Language of Racism” by Emily Drew
Willamette University, Salem, OR. Sept. 17, 2019.
- “Managing Difficult Conversations and Improving Classroom Climate” by Jade Aguilar and Allison Hobgood, and
“Unpacking Everyday Ableism” by Sue Minder
Willamette University, Salem, OR. May 24, 2019.
- “Calculating Cultural Capital” by Kelvin Clark and Karen Wood
Willamette University, Salem, OR. January 17, 2019.
- “Seeking Cultural Competence in Hiring Workshop” by Dr. Cris Cullinan
Willamette University, Salem, OR. September 26, 2016.
- “Bias Training and Inclusive Pedagogy Workshop” by Cathy Busha
Willamette University, Salem, OR. September 7, 2016.
- “College Colloquium Pedagogy Workshop”
Willamette University, Salem, OR. May 26-29, 2015.
- “Faculty Development for 21st Century Diversity: Recognizing and Responding to Issues of Cultural Identity, Equity
and Inclusion in the Academy”
Willamette University, Salem, OR. May 20, 2015.
- “Writing More Competitive Research Grant Proposals” by Dr. Tom Wenzel
Willamette University, Salem, OR. June 7, 2014.
- “College Colloquium Pedagogy Workshop”
Willamette University, Salem, OR. May 20-21, 2013.
- “Avance I Course”
Bruker Offices, Billerica, MA. September 14-17, 2009.
- “NMR Service and Maintenance Course”
Bruker Offices, Fremont, CA. May 5-8, 2009.
- “POGIL Lab Workshop” by Dr. Frank Creegan and Dr. Rick Moog
Linfield College, McMinnville, OR. January 10, 2009.
- “Council of Independent Colleges / Collegiate Learning Assessment Consortium Summer Meeting”
Washington Court Hotel, Washington, DC. August 3-5, 2008.
- “Basic NMR: Fundamentals and Applications” by Dr. Gregory Helms
Center for NMR Spectroscopy, Washington State University, Pullman, WA. May 20-25, 2007.
- “Presenting Data and Information” by Dr. Edward Tufte
Hyatt Regency Hotel, Bellevue, WA. June 12, 2002.
